

5 APR 70

## FORCES LANGUAGE SCHOOL

BUSINESS/PROBLEM: Royal Annex security.

DISCUSSION: The security problem at Royal Annex is of special significance. This building is very vulnerable to attack because of the difficulty of establishing defense positions due to the location of the building. Presently QC and student guards are providing security, with five QC being available only during duty hours. Some US guards augment the security. However, for political reasons, the US guards cannot leave the interior of the building.

RECOMMENDATION: That additional guards be assigned.

ACTION TAKEN: The critical security situation has been brought to the attention of BG Clement, Director of Training Directorate, with emphasis on the speedy construction of the new 200 classroom facility.
